

Burrito Xpress – 3/17/2020

We appreciate your continued patronage of our restaurant and delivery services! As a precautionary measure regarding concerns over the COVID-19 outbreak spreading around the globe, we at Burrito Xpress have decided to take measures to help prevent the spread of this pandemic. Please note, the steps we are taking as is follows:

1. To ensure safe foodservice, a “gloves-on” policy during the entire food-handling process will be enacted- from kitchen to table, everyone involved in this process will be required to wear latex-free gloves.

2. We will be keeping a body-temperature/symptom log of all of our employees during the duration of the outbreak. Recording body temperatures and symptoms will help us narrow down possible contaminated employees- keeping ourselves, AND our customer’s safe.
 - a. All body temperature logs will be accessible to the public- located near the front of the restaurant.
 - b. All deliveries will be labeled with the deliver driver’s name, the date of delivery, and their logged body temperature.

3. Hand sanitizer will be provided to both employees AND customers as often as it is available. Please keep in mind that hand sanitization does not have the same effect as handwashing with antibacterial soap, so quality handwashing is still a MUST.

4. Limiting contact with commonly used surface areas such as doorknobs or doorbells, as well as constant sanitization of commonly used surfaces.
 - a. For delivery, our driver’s will be calling our customer’s provided phone numbers upon arrival. As we will not be touching commonly used surface areas, please be ready to open your door to receive your delivery.
 - b. For the safety of our employees and customers, we would appreciate if everyone that enters our building utilize provided hand sanitizer. If you cannot locate a bottle or package of wipes, one of our employees will be able to assist you.
 - c. We will be constantly be sanitizing commonly used surface areas. For example: door knobs and door handles, tables, utensils, and chairs.

5. We are maxing out our capacity to no more than 50 people into the restaurant at once. IF POSSIBLE, WE WOULD LIKE CUSTOMERS TO ORDER DELIVERY OR TAKE-OUT, AS TO LIMIT CONTACT WITHIN THE RESTAURANT!

6. STIGMA TOWARDS ANY GROUPS OF INDIVIDUALS WILL NOT BE TOLERATED. Please approach any staff member if concern arises.

More updates to follow!

Keeping our customers and employees safe during this trying process is our first concern. Along with enacting more rigorous safety standards, we will be providing everyone with links from the CDC regarding COVID-19.
